

Legislative briefs for February 20, 2008

PAR releases guide to new Legislature

The Public Affairs Research Council of Louisiana, known as PAR, released its Guide to the 2008 Louisiana Legislature on Tuesday.

The 2008 edition includes the biographical information and photographs of Louisiana's legislators, statewide elected officials and congressional delegation. It includes up-to-date contact information for the state's elected officials as well as their committee assignments. The Guide also features information on legislators' term limits.

The Guide is printed on an annual basis with updated information published on PAR's Web site (www.la-par.org) throughout the year. Underwriting support is provided by Entergy Louisiana and McMoRan Exploration Co.

The guides are available at the PAR office in Baton Rouge or through the group's Web site at www.la-par.org.
